<input type="checkbox"/>	IS-0410-10	Scarab Strain Identification Kit	10 Samples	\$5000	<input type="checkbox"/>

All kits include pUC19 DNA control and SOC medium

Transformation efficiency of electrocompetent cells is at least 5×10^9 cfu/ μ g DNA

Transformation efficiency of chemically competent cells is at least 1×10^8 cfu/ μ g DNA

Shipping Fee*

WI Tax (5.5%, only WI Institutions)

Total

*Shipping Fee:

US and Canada - \$65

International – Shipping costs are based on order size and determined at the time the order is packed. Generally, international shipping is at least \$200.00.

Clean Genome® *E. coli* – Shipping and Billing Information

Scarab Genomics – 1202 Ann Street – Madison, WI 53713 – Tel: 888 513-7075 – Fax: 608 257-2043 – www.scarabgenomics.com

Clean Genome® *E. coli* Limited License Information

For research use only, no modifications to the chromosome allowed.

We are pleased to send you the strains that you requested pursuant to the terms of a limited label license. **You may not make any changes to the chromosome of the Clean Genome *E. coli* sent to you.** You may, however, introduce plasmids.

Please identify below how you will use the Clean Genome strains in your research:

Limited License

The Clean Genome® *E. coli* (the "Material") is covered by U.S. Patent No. 6,989,265 and corresponding foreign patents, which are owned by Wisconsin Alumni Research Foundation ("WARF") and exclusively licensed to Scarab Genomics, LLC ("Scarab"). The Material is sold under licensing arrangements with WARF. Purchase of the Material includes a limited license for research purposes only. By purchase and use of the Material, you accept the terms and conditions of the limited license including, but not limited to, the following:

1. The Material shall be used solely for research purposes. Any commercial purpose including, but not limited to, use of the Material to perform contract research or use of the Material to screen compound libraries, is prohibited.
2. No modifications may be made to the chromosome of the Material. You may, however, introduce plasmids to the Material.
3. Only the purchased amount of the Material may be used, provided that reasonable amounts of Material may be produced and archived as necessary to corroborate research results obtained from using the Material.
4. The Material or anything derived or produced from the Material may not be distributed or transferred, directly or indirectly, to any third party for any purpose or use. The Material may not be resold, modified for resale, or used to manufacture commercial products.
5. Scarab makes no representation or warranty as to whether the Material or its use infringes any patent or other intellectual property rights of any third party.

No other license, express, implied or by estoppel, is granted. If you are not willing to accept the terms of this limited license, Scarab is willing to accept return of the Material with a full refund, minus shipping and handling costs. For information on a commercial license for using the Material or license to modify the Material, please contact Scarab's Licensing Department (licensing@scarabgenomics.com).
